**INFORMATION BULLETIN**

**Date:** 4/18/2018

**Bulletin No:** JC-18-08

**Product Type:** Steiner

**Product Update:**

In an effort to continually provide options for our customers' preferences with our products, we have developed a revised forward and reverse pedal kit on the 450 tractors. While the original pedal design works as intended, some customers may find that this change provides smoother, although less responsive, operation. This revision is being applied to all newly built tractors and is offered as an easy to install kit should a customer want to retrofit their existing tractor – see serial number break below.

**Action Required:** To get this new pedal assembly kit, please order kit number **970582**. The MSRP for this kit is \$74.00. Dealer cost is:  
 \$51.80 for Premier Dealers  
 \$62.90 for Non-Stocking Dealers

**Products Involved:**

450 Tractors: Model numbers 75-75025, 75-75032 and 75-75037.

The serial number break for units with the new factory-installed pedal - 75750250272, 75750320179 and 75750370195.

**Warranty:** Since the original factory design works as intended and because this is an optional upgrade, this new upgrade kit not be subject to reimbursement under the terms of the factory warranty.

If you have any questions, please contact our Customer Service Department at 920-699-2000.
