

## I.S.-POLY GRASSCATCHERS (970316 & 970319)

4164610 REV B

These instructions explain the procedure for installing the Poly Grasscatcher models #970316 and 970319 on 36", 42", 48", 52" and 61" decks. NOTE: There is an adapter bracket included to be used on 42" and 61" decks ONLY.

**DO NOT USE ADAPTER BRACKET ON 36", 48" or 52" DECKS.**

**NOTE:** It is easier to install the backplate to the mower with the bag and frame removed. The frame is shown in the illustration for orientation purposes.

### INSTALLATION/ADJUSTMENT OF TENT AND ADAPTER BRACKET TO BACKPLATE

1. Align the four holes on the tent mount 1 with the desired adjustment slots on the backplate 4 (See Figure 1). It may be necessary to move the position of the tent due to different deck sizes.

For installation on 42" and 61" decks follow step 2. For any other deck size go to step 3.

2. Place the adapter bracket 2 between the mounting tent 1 and the carriage bolt 3 as shown in Figure 2. Fasten nut 7 and tighten to 30 ft-lbs.

3. Using carriage bolts 3 and nuts 7 attach tent 1 to backplate 4 in Figure 2. Tighten nuts to 30 ft-lbs.

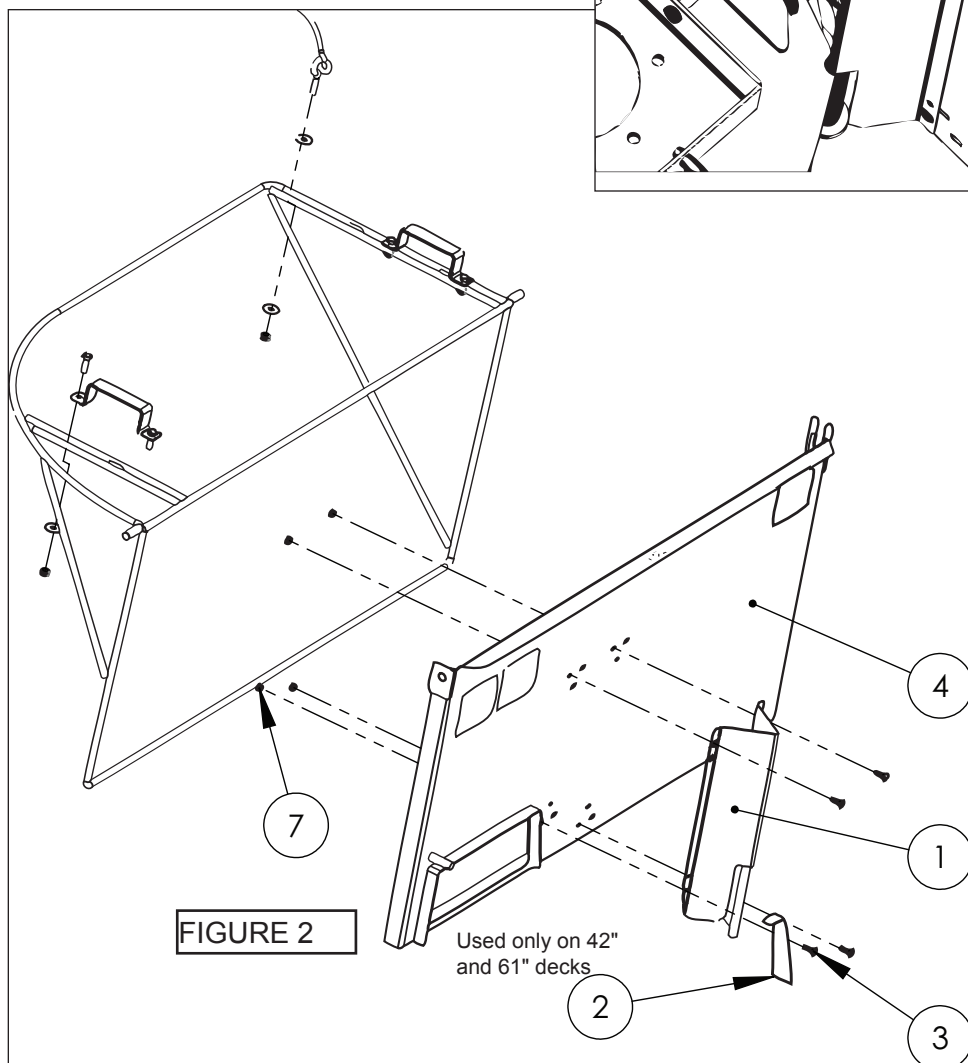

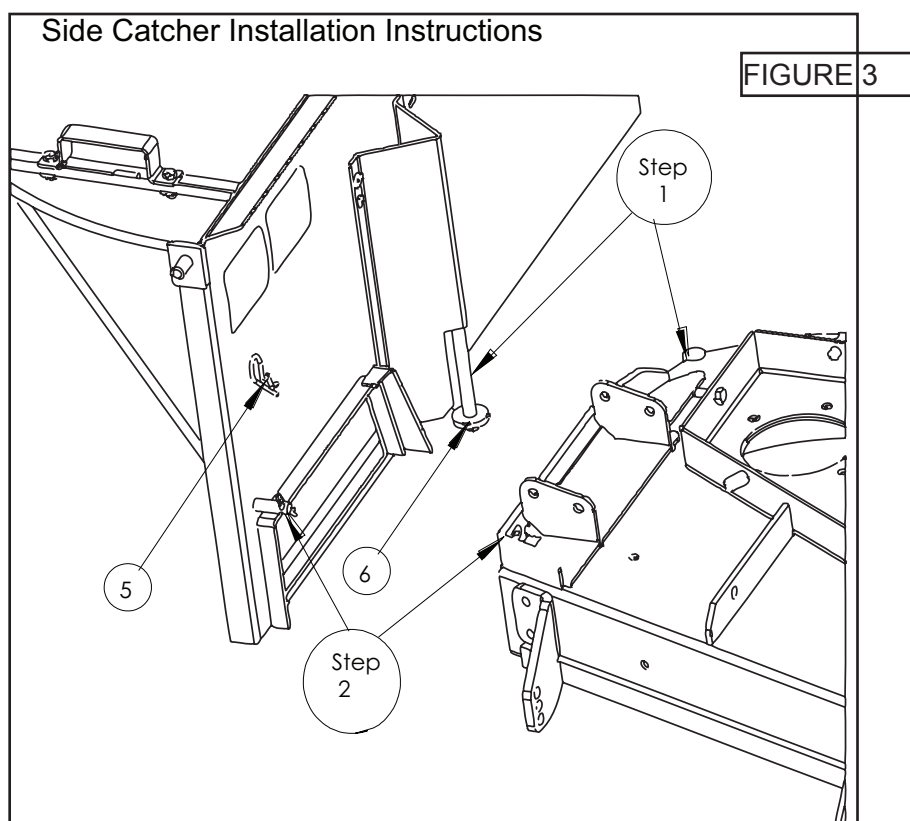

FIGURE 2

## INSTALLATION OF SIDE CATCHER TO DECK (FIGURE 3).

1. Remove the factory discharge chute and retain hardware for use when side catcher is not in place.
2. If necessary for fit, use washer **6** to space the mount from the deck. Align the post on the backplate with the deck mount tube and insert the post so that it sits flush onto the deck. Some older mowers do not have a tube and will need to be installed in the field.
3. Rotate the backplate so that the small post inserts in the hole on the deck bracket.
4. Insert the hairpin **5** into the hole on the small post to secure backplate in place.

ITEM NO.	PART NUMBER	DESCRIPTION	QTY
1	4164281.7	TENT,GC	2
2	32530.4	BRKT-REAR SEAL 42" & 61"	1
