**Product:** Predator-Pro and ProCat G Series Mowers

**ISSUE:** Metal crimp fitting separating from the rubber hose.

**CAUSE:** The supplier’s manufacturing process caused the outside diameter of the rubber hose to be undersized, resulting in an improper hose to crimp fit. Affected hose part numbers are 2720320-01, 2720320-02, 2188157-01 and 2188157-02.

**ACTION REQUIRED:** Inspect all four Wheel Drive Hoses for a painted date code of 12/07/2010. If this date code appears on the hose, replace it.
