

## SERVICE BULLETIN

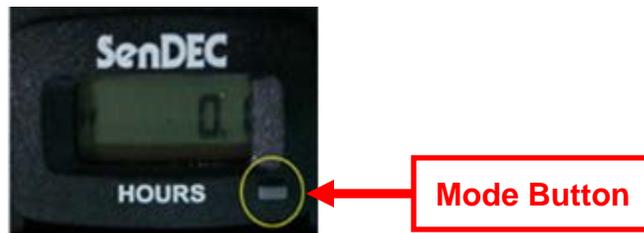

June 22, 2010

Bulletin No: JC-013-10

### NEW HOUR METER INSTRUCTIONS

**Issue:** New "Service Alert" Hour Meter

**Details:** Below are the instructions for the New Hour Meter used on all Zero Turn units produced after May 15, 2010, which will alert the operator when service intervals are due. This information will be included in the newer Owner's Manuals.

**Note:** This hour meter has a "Gentle Alert", which means it starts reminding the operator 5 hours prior to a service interval. Since the first engine oil change is at 5 hours, a Brand New Unit will start flashing a warning "CHG OIL & FILTER" and will count down until it reaches "0" then it will display "NOW". If you clear it before the service interval is due, it will NOT come back on to remind you like a snooze alarm on an alarm clock.

#### **Instructions:**

Depress MODE button to toggle between functions.

To clear a "Service Reminder" press & hold the MODE button for 6 seconds.

Preprogrammed **ALERTS:**

1 time @ 5 hours for "CHG OIL & FILTER"

Reoccurring @ 100 hour intervals for "CHG OIL & FILTER"

Reoccurring @ 25 hour intervals for "SVC AIR FILTER"

Reoccurring @ 500 hour intervals for "CHG HYD OIL"

Meter will read resolution of .01 until it reaches 9,999.9 hrs then 1 hr resolution to 99,999 hrs.

**Warranty:** Does not apply.

If you have any questions, please contact the Schiller Grounds Care, Inc. Customer Service Department at 920-699-2000.

This bulletin is relevant to the departments shown below. Please circulate as appropriate.
