Information Bulletin

Date: November 2, 2012

Bulletin No: JC-016-12

Product Type: All hydraulically driven units; **TOOL** announcement.

This bulletin is to announce the availability of the new hub puller kit **970438** which is designed to fit all hydraulically driven walk-behind and zero turn ride-on units manufactured to date by Schiller Grounds Care Inc.

This new hub kit will make it easier and more economical for your shop to remove wheel hubs from all Schiller Grounds Care hydraulic driven units

This new single puller **970438**, at a **NET** price of \$87.33, is designed to economically replace three pullers:

- the 4 lug puller for wheel motor ZT units (part #71421) cost \$120;
- the 4 lug puller for transaxle and Walk-Behind units (part #71459) cost \$98;
- and a 5 lug puller (part #71784) cost \$98.

That's a total of \$316 if you were to purchase the separate pullers.

The new puller fits all the BOB-CAT hubs as well as the vast majority of other brands due to its diverse bolt pattern. See attached sheets for full explanation of applications.

Action Required: Order through your normal parts distribution channel.

Warranty: N/A

If you have any questions, please contact our Customer Service Department at 920-699-2000.

This bulletin is relevant to the departments checked below. Please circulate as appropriate.

INTRODUCTION: This instruction sheet covers the use of the wheel hub puller kit. (970438)

The 5 lug disc brake design uses three (3) of the 7/16-20 bolts.

The 4 lug drum brake design uses four (4) of the 1/2-20 nuts, or you can use the existing lug nuts turned backwards.

FastCat, Leo, Leo-Plus and Walkbehind units all use four 1/2-20 nuts, or you can use existing lug nuts turned backwards.

ZT100 unit shown above uses four (4) of the 1/2-20 bolts.
